

**ANGLE SEAT VALVE**  
(Single Acting)

**Product Features:**

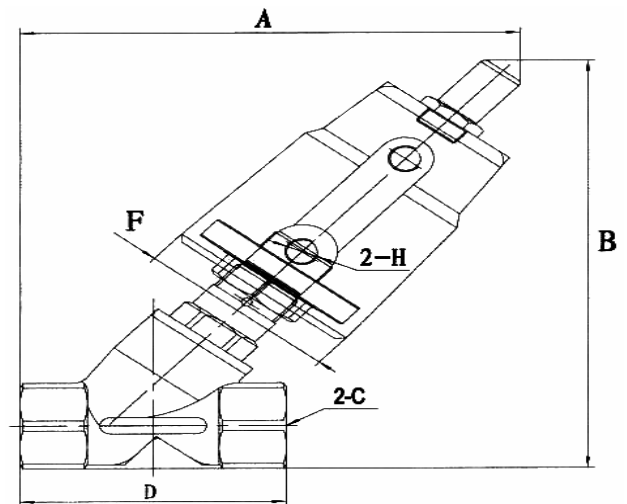

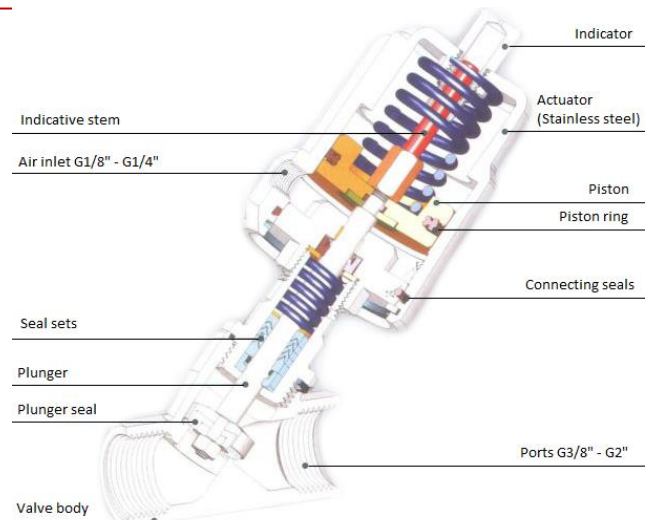

There is automatic adjustable seal gland bush between overflow outlet and slide block.

The bevel structure have big flow rate, no water hammer, no noise and credible seal performance.

**Specification**

Orifice	: DN15-DN50
Thread	: G1/8" – G2"
Valve material	: stainless steel 316
Actuator material	: stainless steel
Valve core seal	: PTFE
Valve steam seal	: PTFE
Applicable medium	: Water, liquid, neutral gas, oil water steam, weak acid or weak alkalis solution.
Medium temperature	: -10°C ~ 180°C
Environment temperature	: -10°C ~ 60°C
Viscosity	: max 600 mm <sup>2</sup> /s
Installation	: any position
Controlling medium	: air or neutral gas
Controlling pressure range	: 0.3 ~ 1 MPa
Liquid working pressure	: 0 ~ 1.6 MPa

**Dimension Table**

Unit: (mm)

Model	Actuator Size	A	B	C	D	E	F	H
